

Market Insights for Light As Medicine – LED Lighting Fixture

Company Profile:

Asset: Vital Vio, Inc. is a manufacturer of overhead LED lighting fixtures with a unique ability to tune areas of the light spectrum to be germicidal to hit bacteria, mold, fungi, spores, and anything else that can cause infection.

Benefits: Nonstop protection for bacteria-sensitive environments while being safe to use around people; fixture is constantly cleaning as long as the light is turned on, even while the room is occupied and does not damage surfaces.

Key Questions:

Compound pharmacies with clean rooms in the Northeast US:

- Is Vital Vio fixture a way for these compound pharmacies to address the new FDA regs?
- How much would the compound pharmacies be willing to spend and what would stop them from purchasing?
- What information is needed to make a purchasing decision? What does the sales process look like?

Project Outcomes:

- High level of interest in the technology
- Provides extra assurance for existing disinfecting regimen
- Characterized key aspects of market:
 - Included applications
 - Projected costs, pricing, growth potential
 - Key players / customers
 - Validation / regulation concerns
- Price point seems to be in line with what the industry can handle
- Need data to validate for compounding pharmacy industry
